## SPECIAL SKILLS

---

Probably my strongest skill is my ability to work well with others. I love people, I take direction well, and I have empathy for others that allows me to relate on a deeper level. These skills help when working with others as well and bringing characters to life.

- I am good at memorization and can relay a script the way the writer accurately.
- I have six children and that alone gives me an extreme amount of patience and Saint status!
- I love to workout and am physically fit.
- I have a passion for all the arts. I am a writer, musician, painter, actor, designer and dancer.
- Last, I am a hard worker. I have a lot of energy and like things done right. With my drive, keen eye for quality, ability to work well with others, strength in multi tasking and creativity I am really good at getting things done.
